Subject: Harmful Behavior of 1AT70 Simon, Vice-President of the Alfa Tango club

It is regrettable to note that 1AT70, one of the Italian vice-presidents of the Alfa Tango club, continues to spread negative information about the Romeo Charlie club and its members.

It is clear that 1AT70's main objective is to systematically discredit the Romeo Charlie club. Rather than offering constructive criticism or suggesting ways to improve, he engages in constant disparagement, often relying on exaggerated, distorted, or even unfounded information. This behavior does not aim to promote dialogue or problem-solving but rather seems intended to sow discord within the 11m community.

By relentlessly spreading negative remarks, 1AT70 fosters a climate of mistrust and division on the radio bands. This attitude undermines the morale of members and the cohesion between groups, replacing the values of respect and cooperation with suspicion and frustration. Instead of easing tensions, he appears to be actively worsening them, indirectly encouraging members to take sides, which only deepens existing conflicts.

This behavior affects more than just the image of the Romeo Charlie club. The entire 11m community suffers as a result, as a toxic environment fueled by incessant criticism and latent hostility hinders collective progress. Such a situation contradicts the values of respect, unity, and sharing that should prevail within clubs of passionate enthusiasts.

In light of these actions, it is urgent to act. We call on the members and leaders of the Alfa Tango club to take measures to put an end to these harmful practices. Whether through a formal warning, mediation, or any other appropriate action, it is essential to restore a healthy and respectful environment that fosters unity and the well-being of the entire 11m community.

73 to all.
